- Good Team player
- Result oriented
- Strong communicational and interpersonal skills
- Self motivated
- Ability to deal with pressure.

**Please send updated CVs in English to [kariyermerkezi@sehir.edu.tr](mailto:kariyermerkezi@sehir.edu.tr) with the related REF No.**

## **2. Java Software Developers**

### **REF: HWIJAVA**

#### **Qualifications ;**

- Candidates must have at least two years of experience in SW Development/SW testing preferably in telecom sector.
- Military service must be completed for male candidates.
- All candidates must be Turkish citizens.
- Engineering degree is a must for all candidates. If the candidate graduated from a foreign university, diploma equivalency certificate must be presented.
- Advanced level of English is a prerequisite.

#### **Job Requirements;**

- Experience in Java EE Technologies and design patterns
- Strong knowledge on OOP concepts, hands on experience with design patterns and advanced topics is essential
- Web Services (Axis, JaxWS etc), Application Container experience at least in one of the followings (Tomcat, Jboss, IBM Web sphere etc), JavaScript, Ajax, MVC (Struts, JSF, Spring etc...) , JSP, HTML , Experience in Unit testing and automation.
- Experience in DBMS: Oracle is preferable.
- Experience in Structured Query languages: PL-SQL is preferable.
- Knowledge in DBMS performance monitoring and administration (Optional).
- Experience in E2E system performance analyzing.
- LINUX knowledge and/or UNIX (Solaris) knowledge. Basic knowledge in Shell Scripting
- Experience in SDLC (V Model, Agile, Waterfall etc...).
- Sun or Oracle Java Certifications (Optional)

**Please send updated CVs in English to kariyermerkezi@sehir.edu.tr with the related REF No.**

### **3. New Graduate Engineers**

#### **REF: HWINGR**

#### **Job Requirements:**

- Engineering degree (preferably in Computer/Software, Electric/Electronics and/or Telecommunications Engineering)
- Fluency both in Turkish and English (written and spoken)
- Knowledge of software programming and testing (Java, C++, DB)
- Good communication skills and social abilities
- Good command of MS Office Package Programs
- No restriction to work and travel in Turkey and abroad
- Military service must be deferred for at least 2 years

**\*Will take role in one of the various Telecommunication projects.**

**Please send updated CVs in English to [kariyermerkezi@sehir.edu.tr](mailto:kariyermerkezi@sehir.edu.tr) with the related REF No.**

## **4. Research Engineers**

### **REF: HWIRE**

#### **Qualifications :**

- Candidates must have at least two years of experience in SW Development/SW testing preferably in telecom sector.
- Military service must be completed for male candidates.
- All candidates must be Turkish citizens.
- Engineering degree is a must for all candidates. If the candidate graduated from a foreign university, diploma equivalency certificate must be presented.
- Advanced level of English is a prerequisite.

#### **Job Requirements:**

- Master and PhD degree are preferable (in Computer or Software Engineering or equivalent)
- Thesis/research areas should include some of the following:
  - Information Retrieval
  - Web Information Extraction
  - Semantic Web and Semantic Technologies
  - Distributed Databases
  - Natural language Processing
  - Personalization
  - Data Mining
  - Social Networks and Social Media
  - Human Computer Interaction
- The following skills are required:
  - Deep understanding of the field on which the candidate has studied.
  - Proficiency in Java, and/or C++
  - Proficiency in Web Application Development
- The following skills are desired:
  - Reasonable understanding of Web Search
  - Experience in large software system architecting
  - Experience in Web application and development
  - Experience in Mobile applications, especially Android and/or IOS.
  - Experience in Semantic Web technology development
- Ability to solve problems creatively
- Good written and oral communication skills
- Strong analytical skills
- Customer oriented, work systematically under tight schedules
- Fluency in both written and spoken English
- Available for domestic or international travel when required

**Please send updated CVs in English to [kariyermerkezi@sehir.edu.tr](mailto:kariyermerkezi@sehir.edu.tr) with the related REF No.**

## **Test Engineers**

### **REF: HWITE**

#### **Qualifications ;**

- Candidates must have at least two years of experience in SW Development/SW testing preferably in telecom sector.
- Military service must be completed for male candidates.
- All candidates must be Turkish citizens.
- Engineering degree is a must for all candidates. If the candidate graduated from a foreign university, diploma equivalency certificate must be presented.
- Advanced level of English is a prerequisite.

#### **Job Requirements;**

- Experience in RDMS: Oracle or MySQL . Knowledge in PL-SQL.
- Basic knowledge in DBMS performance monitoring and administration.
- LINUX knowledge and/or UNIX (Solaris) knowledge. Basic knowledge in Shell Scripting
- Experience in E2E system performance analyzing.
- Experience in SDLC (V Model, Agile, Waterfall etc...).
- Experience in Testing Methodologies (Black Box, Gray Box, White Box Testing)
- Experience in Stress & Load & Performance testing (Selenium, LoadRunner etc)
- Experience in Bug Reporting Tools (Jira, Bugzilla, etc..)
- Testing Certificates (ISTQB )(Optional)

**Please send updated CVs in English to [kariyermerkezi@sehir.edu.tr](mailto:kariyermerkezi@sehir.edu.tr) with the related REF No.**

## 5. Web (UI) Developers

### **REF: HWIUI**

#### **Qualifications ;**

- Candidates must have at least two years of experience in SW Development/SW testing preferably in telecom sector.
- Military service must be completed for male candidates.
- All candidates must be Turkish citizens.
- Engineering degree is a must for all candidates. If the candidate graduated from a foreign university, diploma equivalency certificate must be presented.
- Advanced level of English is a prerequisite.

#### **Job Requirements;**

- 2 – 5 years of front-end development experience in commercial projects
- Excellent JavaScript, HTML5, CSS3 skills
- RequireJS/PureMvc/AngularJS or similar JavaScript libraries knowledge
- SASS/Less or similar CSS pre-processors knowledge
- Experience with Restful APIs
- Application of OOP and other software engineering principles
- Experience with versioning tools such as SVN, GIT or VCS

**Please send updated CVs in English to [kariyermerkezi@sehir.edu.tr](mailto:kariyermerkezi@sehir.edu.tr) with the related REF No.**
